

# LAWRENCE DOORS

## WE DO MORE THAN JUST DOORS...

For over a century, Lawrence Doors has been at the forefront of crafting innovative and reliable rolling doors and grilles, side folding closures, and folding gates. Our commitment to meticulous design and superior quality ensures that every product not only meets but exceeds industry standards. Discover the legacy of excellence that defines us and experience the unparalleled craftsmanship we proudly stand behind.

# WITH SEVERAL PRODUCT CHOICES...

## SERVICE DOORS

With a wide range of different models to select from, our service doors can meet the various requirements for most commercial and industrial settings.

## COUNTER SERVICE DOORS

Commonly utilized for small openings, our CD Counter Door has many of the same features and benefits as our service doors, but with a compact design in mind.

*\*Stainless Steel Frame Shown By Others*

## ROLLING GRILLES AND CLOSURES

Available as a standard duty format for typical shopping mall and storefront installations and as a heavy duty format for higher usage applications such as parking structures.

## SIDE FOLDING CLOSURES

The F Series Side Folding Closures offer a compact and effective security solution for minimal headroom applications such as kiosks, parcel shipping stores, and mall storefronts.

## FIRE DOORS

Our fire doors effectively combine cutting-edge design features with specialized construction for ultimate fire protection. Engineered to provide state of the art safety, they ensure reliable performance and peace of mind.

*Lawrence Fire Doors and Counter Fire Doors are UL Listed and FM Approved for up to 4 hours and available with an air leakage "smoke" door rating.*

## COUNTER FIRE DOORS

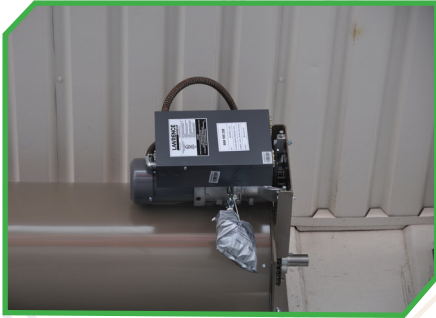

Compact but ready to close on command. Our CL Counter Fire Doors fits seamlessly into tight spaces without compromising safety. A combination of convenience and top-tier protection ensuring you peace of mind in critical situations.

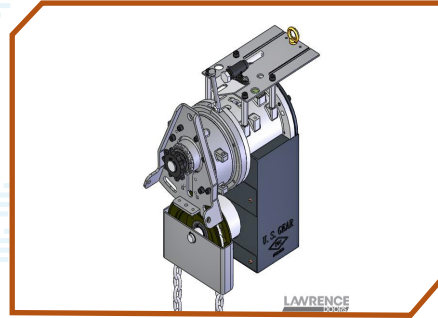

# ...WE HAVE A SOLUTION FOR YOUR PROJECT!

## AUTOMATION

A variety of motor operators are available to optimize the efficiency of our rolling door and grille products. A full line of controls and accessories can ensure both safety and convenience.

## FIRE DOOR RETROFIT OPERATORS

Our Retrofit Fire Door Operators provide state-of-the-art technology for existing fire doors. When retrofitted, even older doors can be tested and reset easily, and operate with reliability. Our retrofits are the most advanced fire doors systems available today.

## HIGH PERFORMANCE DOORS\*

The Model PD symbolizes high performance, high speed, and longevity. A door that is built to last!

## HIGH PERFORMANCE GRILLES\*

The model PG is the top choice for heavy usage, offering exceptional operating speed, unparalleled durability, and extreme cycle life.

## HIGH PERFORMANCE TIGHT COIL GRILLES\*

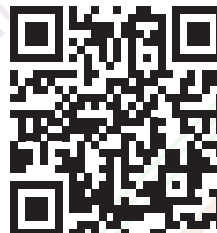

The Model PT offers the best of both worlds; high performance and low headroom. Designed to fit as low as 12" total clearance.

\*Lawrence high performance products are designed for 500,000 cycles usage with an average operating speed of up to 24 inches per second to open and 12" per second to close.

# ADDITIONAL PRODUCTS AND SERVICES

## FOLDING GATES

This product is available in double channel or single channel construction and these gates can operate either as single sliding or in a bi-parting configuration. These gates also glide easily on floor casters or within fixed tracks. We also have some models available as a portable gate for added satility.

## CHAIN GATES

These gates are fabricated as horizontal and vertical rows of interconnected chain links in a square pattern suspended from a top track. With two different models, they can be used on truck bodies (specifically the cargo hold area of box trucks) and can also provide access control to buildings as well.

## SPECIAL PROJECTS

Known for our specialty work. We specialize in custom door products designed to fit your special application needs. Examples include oversize doors/grilles, inverted doors/grilles and special environment doors/grilles. Contact customer service for more details.
